

Joseph 4 - Review Game - Free Joseph

Print 2 copies of the face picture on the next page on cardstock or heavy paper. (You may want to insert them in sheet protectors with the binding edge cut off.) From black paper cut 6 strips for each face, each $\frac{3}{4}$ " by $10\frac{1}{4}$ ". Place them as "prison bars" over each face picture, sticking them on with removable tape or bits of "handi-tack" putty.

To play, divide the group into two teams, asking questions alternately. If a child answers a question correctly he gets to remove one of the bars from his team's picture. If the answer is incorrect, give the correct answer, and move to the other team. The first team to "free Joseph" wins. (To be fair, make sure to ask each team an equal number of questions so there can be a possible tie.)
