

Instructions for downloading "Bible Adventures" CD-ROM files

(from www.cefkids.com/bibleadventuresdownload.htm)

1. Click on the "Download BIBLE ADVENTURES" link, and when asked "Do you want to open or save this file?", choose "**Save**", and save in the default location (usually desktop) or specify another.
2. When the download is complete (about 6 min.), click "**Open**". A new window will appear containing 12 folders and files. On the left under "Folder Tasks" click "Extract all files" which opens the Extraction Wizard. Click "**Next**" and select a destination for the extracted files (or simply leave the default that's already chosen) and click "**Next**". The extracted files will be saved in the specified folder.
3. On the "Extraction Complete" window, make sure the box for "**Show extracted files**" is checked and click "**Finish**". A new window will appear with 6 folders and 6 files.
4. To burn them to a CD, select all 12 folders and files and move them into your CD burning program (such as Nero).
5. You may delete the zip file "bibleadventures.zip" if you wish, because the saved files for burning CDs are now in the folder named "bibleadventures". When burning CDs in the future, never move the folder as a whole into the burning program, but open it and move the 12 individual folders and files.
